Press Release
June 9, 2011

EasyType French Accents has been released

EasyType French Accents is now available. You can purchase it or download a free copy from its website www.easytypefrenchaccents.com. EasyType Type French Accents is a software utility for Windows that allows users to type French accents hassle-free. Typing French Accents has always been a cumbersome task. This utility provides an innovative and simple solution: All you do is press the same key twice or more to produce the accent you want. It's that simple. EasyType French Accents was developed with simplicity and usability in mind. If you type in French, either for school, business, or social interactions, you will find this utility extremely helpful. Before long, you'll wonder how you ever typed French accents with Alt codes and combination keys. This French typing support tool is so simple and user-friendly, it can be used not only in elementary and secondary French classrooms, but also in special education and assistive technology settings.

Whether you type in French on a regular basis or just occasionally, EasyType French Accents is for you. It costs only \$19.99. Always on the move? Just install it on your laptop and do your word processing in French fast and efficiently. A free fully-functional trial version is available. EasyType French Accents was developed in Canada by Accent Grave Innovations.
